PROFILE SUMMARY

Enthusiastic **Lead Front End Engineer** with overall **8 years** of experience participating in the complete product development lifecycle of successfully launched applications. Enjoys collaborative teamwork, contributing to the design and development of production applications. Dedicated to using expertise in **JavaScript, TypeScript, MEAN, MERN, PHP, Python, AWS** and more. Committed to not just meeting but exceeding project objectives, ensuring a timely and seamless delivery experience.

TECHNICAL EXPERTISE

- Experienced in crafting modern applications using **React, NextJs, Angular (all versions), Express, Bun, MEAN** and **MERN**.
- Skilled in both **Monolithic** and **Microservices** architecture, particularly with **Express** and **Flask / Fast API**.
- Managed teams, assigned tasks, and conducted code reviews, emphasizing quality and collaboration.
- Throughout the Software Development Life Cycle, I bring insights to project planning, design, and deployment strategy. Strong in communication, analytical thinking, and teamwork.

AWS PROFICIENCY

- Expertise in **AWS** services, including **EC2, ECR, S3, RDS, SNS** (Simple Notification Service), **AWS Athena, AWS Elastic Beanstalk, Lambda, CloudWatch** and CloudFormation for scalable solutions.

SKILLS

- **Programming Languages** : JavaScript, TypeScript, NodeJS, PHP, Python.
- **Web Technologies** : React, Angular, Redux, Bootstrap, Docker, Jest, Jasmine, Karma.
- **JavaScript Frameworks** : Express, NestJS, NextJS, Angular.
- **Frameworks** : Flask / Fast API, Laravel, CodeIgniter.
- **Databases** : MySQL, MariaDB, MongoDB, Redis, PostgreSQL.
- **Versioning Tools** : GIT, Bitbucket, Gitlab, Github.
- **Toolbox** : Agile Processes, Jira, Trello, Docker, Kubernetes, AWS, SonarQube.

PROFESSIONAL EXPERIENCE

Lead Software Developer - Annalect (Omnicom Media Group)

Gurgaon, India | Jun-2021 - Present

- Developed and managed **ORAD** (Omni Reporting Tool) using **TypeScript, Web Components, NextJS, NodeJS**, and **Python**.
- Contributed to **Omnicom Portal** with **Python (Flask / Fast API), TypeScript, Express, Lit** and **React** using **Docker**.
- Participated in an on-site assignment at **Volkswagen** in **Munich, Germany**, from Dec-2022 to Feb-2023, working on the **EOL** project. Utilized **React, NextJS, Express**, and **Python** for data visualization tasks related to Vehicle Frequencies.
- Pioneered the implementation of **(CI/CD)** pipelines for **Microservices**, significantly reducing deployment time.
- Designed and developed **Fast API** based Microservices, enhancing modularity. Led the transition from a **Monolithic Express** web app to **Microservices** using **Docker** and **Kubernetes**, improving scalability and cost-efficiency.

Software Developer - Dyninno Group

Gurgaon, India | Aug-2020 - June-2021

- Significantly contributed to **B2B** and **B2C** projects in the travel domain by developing applications with **NestJS** and **React**.
- Created Communication Center and Reminder apps, improving agent-customer interactions and record tracking.
- Engaged in concurrent project assignments, implementing **Web Services** for communication channel integration.

Software Engineer - Dew Solutions OnSite - (Emirates Airlines) (Innovation Group)

Dubai, UAE | May-2019 - June-2020

- Led Front End Development using **React, Angular, Express**, and **MongoDB** throughout the project life cycle.
- I played a crucial part in the Travel Domain Expo 2020 project, where I helped build the **Emirates Dex Portal** for both **B2B** and **B2C**. We made things smoother using **Docker** to organize everything neatly.
- Developed **Express** REST APIs and a **React** frontend using **Docker**, enhancing portal functionality and user experience.
- Facilitated transparent project communication and collaborated on **iTradeNetwork** design and development.

Senior Software Engineer - CoderSoft

Gurgaon, India | Oct-2017- May-2019

- Involved in implementing new components for the Restaurant Management System.
- Worked on **ERP, APIs** based on **Express** and **NestJS**, and Front End based on **React JS** using **Docker**.
- Created an **Online Portal** to sell furniture for a UK-based client, and maintained Online Fantasy Platforms (**PlayZo**).
- Implemented new components and worked in the **Admin Panel** of **Leverage Edu**.
- Worked on Lead Management System (**LMS**) for Cars24, maintained Solarsoft **B2B** and **B2C** platform with **Texala** India.
- Identifying, resolving and fixing the issues reported by customers, Created and Maintained API Tracking site.

Software Developer - Halwits Solutions

Lucknow, India | Mar-2016 - Oct-2017

- Implemented Matrimonial Platform components with **Codelgniter, MySQL**, and **Angular** for a seamless user experience.
- Enhanced core components for products, including work on the Online Medical Portal **ClickYourMed**.
- Contributed to the development of a College Management System tailored for **IMS**, actively participating in the implementation of various modules such as **Exams, Student Management, Attendance Tracking, and Leave Management**.
- Addressed and resolved customer-reported issues. Developed a project layout using **Angular** and **Codelgniter**.
- Designed **MIS** Satkar Logistics, an automated Management Information System for streamlined office operations.

PERSONAL PROJECTS

- Founded **Techhub.Cafe**, curating a platform with a diverse set of interview questions for **Full Stack Development**.

EDUCATION

- **Master's Degree in Computer Application (MCA)**
 - Integral University
 - 2017 - 2019
- **Bachelor's Degree in Computer Application (BCA)**
 - Swami Vivekanand Subharti University (SVSU) (UPTEC)
 - 2012 - 2015
- **A Level (IT)**
 - NIELIT (UPTEC)
 - 2012 - 2017

LANGUAGES

- **English: Fluent (Native or C2 proficiency level)**
- **German (A2 level)**
